

The servants can't fix this.

Both political parties skim our payroll accounts, support illegal aliens, sexual perverts and welfare abusers, and are trying to stop Trump. But taking America back is not a president's job; it's ours. Tired of empty talk?

Join us.

TACTICAL  **CIVICS**™

MAGA in Action™

TacticalCivics.US

In 1787, George Washington promised small congressional districts to avoid corruption; the first article in the original Bill of Rights. In 2018, Donald Trump can deliver on the promise at last. We need 27 more states' votes to make it the 28th Amendment.

Then we take Congress out of D.C. forever with our Bring Congress Home Act: congressmen work by telepresence from a lease office in their town. We give them a staff of two, half the current salary, two terms, and no benefits.

See our website; **Tactical Civics™** will get the 28th Amendment ratified, then push 22 laws to restore all we have lost to DC organized crime.

Indictment Engine™

After 150 years of lies and corruption from state and federal legislators, AmericaAgain! will offer the first mobile app to enforce the U.S. Constitution against every legislator attempting to violate it. Much more than Trump can do, We The People use 21st century technology to end the hijacking by our corrupt servants. We are launching **Tactical Civics™** chapters coast to coast; go to TacticalCivics.us and start a chapter in your county.
